TECHNICAL SKILLS

- Java
- Python
- C and C++
- Sql
- Ms office
- Ui&ux
- Object oriented analysis and design

LANGUAGES

- English
- Tamil

SOFT SKILLS

- Communication Skills
- Leadership Skills
- Time Management
- Teamwork

PROFILE

I am deeply passionate about Artificial intelligence & Data science and I have owned my technical skills. I am eager to leverage my skills and enthusiasm for Machine learning to make a meaningful contribution to the Technology industry and I am open to exploring new opportunities and collaborations.

PROJECTS

Smart recruitment app

Python and Generative AI

- A smart recruitment app uses artificial intelligence and automation to streamline the hiring process, by matching candidates' skills with job requirements.
- Technologies Used: Python, Generative AI , Natural Language Processing (NLP), Scikit-Learn, Pandas, NumPy, Flask

Facial Detection

Python and Generative AI

- Developed and implemented a facial detection system using AI and ML techniques to accurately detect and and locate human faces in images.
- Technologies Used: Python, OpenCV, TensorFlow, Keras, Haar Cascades, DNN (Deep Neural Networks).

INTERNSHIP

Arul Technology, Chennai

Artificial intelligence & IOT

- Internship program focused on Real time implementation of internet of things (IOT) & Artificial intelligence (AI) and project on facial detection in 30days

EDUCATION

B.Tech(Artificial Intelligance & Data science) — 2021 - 2025
Anand institute of Higher Technology
CGPA: 8.9 / 10

Higher Secondary School — 2020 - 2021
Nellai Nadar Matriculation Hr.Sec. School
Percentage: 90.4

SSLC — 2018 - 2019
Nellai Nadar Matriculation Hr.Sec. School
Percentage: 92.5
